- Registration Deadline: April 15, 2026

## SPECIAL SESSION 1

### Generative AI-driven Image and Vision Innovation

Generative AI has revolutionized image and vision. This session, themed "Generative AI-driven Image and Vision Innovation", is a platform for global experts to exchange cutting-edge research. This session invites papers focusing on technical breakthroughs, application case studies, and ethical considerations across these themes. Discussions will center on integrating generative AI with core vision technologies to unlock new possibilities, while we also welcome submissions on lightweight solutions and cross-domain adaptation strategies. It aims to facilitate knowledge exchange, accelerate achievement transformation, and shape the future trajectory of the image and vision industry.

### Call for Papers — —

Topics of interest include, but are not limited to:

- Generative AI for quality image restoration
- Cross-domain generative vision transfer learning
- AI-generated visual content authenticity detection
- Generative 3D vision modeling & lightweight rendering
- Real-time Visual Super-resolution via Generative AI
- Cross-modal Visual Content Generation
- Edge Deployment of Lightweight Generative Vision Models
- Interactive Personalized Visual Content Generation
- Medical Image Reconstruction with Generative AI
- AI-generated Fake Visual Content Traceability & Detection
- .....
